ABOUT ME

Graphic design is my passion since I'm 18, now I'm 34 :) Since I was 18 I've been in constant learning, university, certified special courses, a lot of self-taught learning but above all a lot of learning from the experience of working independently with clients since I was 21 years old. Im still learning every day. My experience in graphic design started almost 7 years ago. My best experience with a digital platform as well as international clients, I have been able to work with more than 1000 clients all over the world.
